User Manual

1. Introduction

This wireless presenter is suitable for any presentation or PowerPoint occasion. With it, you do not need to stand beside your computer or have an assistant. It is very simple to use, just plug and play, and no driver is required.

The device enables you to control your presentation wirelessly up to 10 metres (32 feet) away, thanks to the advanced Radio Frequency (RF) technology that works through walls.

It combines the functions of a laser pointer, remote control and mouse. It is tailored as a convenient tool for presentations, teaching, meetings, speeches and training etc.

2. Operating system

The device supports Windows 98 / ME / 2000 / 2003 / XP / Vista / 7/ 8, Linux and Mac OS.

3. Parts & Functions

3.1 Front

1) Mode1 (M1):

∗Note: Blank screen and start slide functions are for PowerPoint only.

2) Mode2 (M2):

3.2 USB Receiver

3.3 Back

Once the USB receiver is connected to a computer, it would normally detect the signal sent from the presenter automatically, if however it does not due to interference caused by other devices, press ID1 and ID2 at the same time to re-establish the connection.
